

(14) Special cases

When the project is included in city planning

- The prefectural and municipal governments responsible for the city planning perform the procedure instead of the project proponent.
- EIA proceeds along with the procedure for formulation of city planning.
- The assessment results are also reflected in the city planning.
- Impact Mitigation Reporting is carried out by the proponent of the city planning project.

Port planning

- The assessment is made not for the project, but for the port planning, and is carried out by port management bodies.
- Primary Environmental Impact Consideration, Screening, Preparing the Procedural Document and Impact Mitigation Reporting are not carried out.

Power plant

- The national government (Minister of Economy, Trade and Industry) presents his/her opinion in the Procedural Document and the Draft EIS.
- Impact Mitigation Reporting is limited to the publication of Impact Mitigation Report.
